Height will vary with graphic size.
Width = 985mm (38.8")

Shipping Weight:
4.1kg approx

Shipping Dimensions:
1125mm x 165mm x 85mm

graphic specifications

Graphic Dimensions:
Width = 795mm/31.25" maximum
Height will depend on design
Allow 2x bleed of approximately 100mm for the 20mm dia pole sleeves and place eyelets 30mm in from the banner edge.

Substrate:
Flag material
With UV resistant ink for outdoor use.

Graphic life span is dependant on graphic materials and environment conditions

Assembly Instructions

Kit includes: 2X pole mount, 2X hose clamps, 4X washers, 4X screws, 2X zip ties, 4X safety pins, 2x poles

1

Put the pole mount on the post.

2

Wrap the hose clamp around the post and fit it into the groove on the mount.

3

Pull on the hose clamp to tighten it.

4

Push the screw down on the hose clamp to fasten it.

5

Tighten the hose clamp by turning the screw.

6

Once the mount is secure, slide the pole in to the mount. Make sure to line up the holes.

7

Push the safety pin through both holes to secure the pole in the pole mount

8

Close the safety pin and the finished pole and pole mount should look like this.

Assembly Instructions

Slide your graphic onto the top pole.

Loop a zip tie around the grommet in the top of the graphic

Use the other safety pin and fasten it to the zip tie and the safety pin holding the mount to the pole. This will make sure the graphic doesn't slide off.

Repeat steps 1-11 for the bottom pole and pole mount. Make sure that it is the correct distance from the top so that your graphic hangs well.

The finished Mistral should look like this.
